ROMMEL E. FABI

District Engineer
DPWH- Batanes District Engineering Office
Basco, Batanes

Dear **Engr Fabi**:

Greetings from SDO Batanes.

The Schools Division of Batanes is writing to request a list of projects implemented by DPWH that have not yet been formally turned over to the Department of Education (DepEd) Schools Division of Batanes. This information is crucial for our ongoing monitoring and management of educational infrastructure to ensure that all projects are completed and operational in a timely manner.

Moreover, we would like to bring to your attention a concern regarding the ongoing construction of the 3-storey, 6-classroom building at Batanes National Science High School. Upon reviewing the Program of Work and project plans, it is clear that the construction should include a new septic tank to service the new facility. However, during a recent site inspection, it was observed that no new septic tank has been constructed.

This oversight raises significant concerns regarding the adequacy of waste management for the new facility and its compliance with the planned project specifications. We request your immediate attention to this matter and ask for clarification on why the new septic tank has not been constructed as per the original plans. Furthermore, we seek your guidance on the corrective actions that will be taken to address this issue.

We appreciate your prompt attention to these concerns and look forward to your response.

Thank you for your continued support and cooperation.

Very truly yours,

ALFREDO B. GUMARU JR. EdD CESO V
Schools Division Superintendent
